Guam Power Authority Kiosk(s) Solution and Professional Services

General:

The Guam Power Authority was created in 1968 as a public corporation and autonomous instrumentality of the Government of Guam. Since that time the Authority has maintained and expanded the island wide power system on Guam. The Authority now has 469 megawatts of generation capacity, 663 miles of transmission and distribution lines, 29 substations, \$904 million in assets, and \$366 million in annual revenues. GPA currently serves approximately 49,000 customers with the U.S. Navy being the largest representing about 17% of revenues.

The Guam Power Authority was changed into a public corporation of the Government of Guam in 2002 and is governed by a five member elected Commission – the Consolidated Commission on Utilities (CCU). The CCU retains contracting authority, establishes policies and has control over the selection of top management of the Authority.

The Authority is regulated by the Guam Public Utilities Commission – a rate setting body made up of Commissioners appointed by the Governor of Guam. The PUC has established rules of operation that are similar to those of other jurisdictions within the United States. The PUC has broad regulatory authority over GPA including approval of any contracts that might have an impact on GPA's rates.

Purpose:

The Guam Power Authority (GPA) is soliciting proposals to secure kiosk(s) solutions and professional services to enhance GPA's payment options.

Upon installation of kiosk(s), GPA expects the kiosk(s) to adequately perform or assist with the following business process:

Customer Experience: GPA will utilize onsite kiosk(s) for customers who wish to avoid teller lines. In future, kiosk will be placed in retail locations closer to the residence of customers to improve customer satisfaction. The ability to verify customer information utilizing a barcode scanner or manual input of customer account data will help ensure account security.

System: The kiosk must interface with GPA Oracle Customer Care & Billing and provide real-time payment posting. GPA require vendor to be PCI compliant.
